

ALUMINIUM HEAT TRANSFER PLATE

product description

Aluminium heat transfer plates are used for installing floor and wall heating systems with the use of low profile underfloor heating. Heat transfer plates are an integral element of heating systems based on EPS boards, acoustic boards and chipboards. Aluminium heat transfer plates allow the heat to spread effectively across the heating area. Thanks to its special shape, heat transfer plates act as pipe mounting elements.

*Other dimensions of aluminum plates are available on customer request.

Aluminium heat transfer plate - single

Index	Diameter	Product dimensions X/Y/Z (mm)	Net weight (g)	Multipack			Pallet
